

I never thought about you
You never thought about us
Yeah, it came out of the blue
And I was just dreaming
That took a night as insane
To feel the need of your touch
And I could never explain
How I was just dreaming
Ooh, ooh, ooh
Never guessed what came after
Ooh, ooh, ooh
I fell
Automatically in love
Right away, baby, it's a real rollercoaster
When the wind goes the other way
But you and me, right away, baby
We were automatically in love (in love)
Right away, right away, baby
Just a girl undercover and a boy with the getaway
You and me, right away, baby
We were automatically in love (in love)
It's not the fear that you trust
It's not the voice in your head
We got the chemical rush
And now we're just dreaming
And we could wait for the proof
A little time to adjust
But every moment with you
I wake up just dreaming
Ooh, ooh, ooh
Never guessed what came after
Ooh, ooh, ooh
I fell
Automatically in love
Right away, baby, it's a real rollercoaster
When the wind goes the other way
But you and me, right away, baby
We were automatically in love (in love)
Right away, right away, baby
Just a girl undercover and a boy with the getaway
You and me, right away, baby
We were automatically in love (in love)
In love, in love
Mhm, La da da da da da da
Love so fast, I can't go slow
Hold me back
Baby boy, hold me close
Love's so real
I can't go slow
Can't imagine, by the way, I'm feeling slow
Automatically in love
Right away, baby, it's a real rollercoaster
When the wind goes the other way
But you and me, right away, baby

We were automatically in love (in love)
Right away, right away, baby
Just a girl undercover and a boy with the getaway
You and me, right away, baby
We were automatically in love (in love)
Mhm, mhm
Hmm, hmm
Automatically
